

First Phase of COVID-19 Vaccination Programme

The NHS Covid-19 vaccination programme has started.

Some GP practices in Derbyshire have begun vaccinating priority patients and staff against COVID-19.

More practices will begin vaccinations in the coming weeks.

Priority is based on age, and existing health risks.

If you are eligible, please wait to be contacted by your GP practice.

When the time is right you will receive an invitation to come forward by either:

- telephone, or
- letter

You do not need to contact the practice about your vaccine in the meantime.
